DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 09/28/2009 has been entered. New claim 38 has been added.

Applicant's arguments filed 09/28/2009 have been fully considered. Rejections and/or objections not reiterated from previous Office Actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set of rejections and/or objections presently being applied to the instant application.

Claim Rejections - 35 USC § 103

Claims 18-37 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Pollock et al. (US 5,270,032) in view of Yoshida et al. (US 4,486,330); and the rejection is applicable to new claim 38.

The rejection is maintained under the art and reasons of record. See Final office action dated, 12/23/2008 and Advisory Action dated, 09/16/2009. Further, in regards to

new claim 38, Pollock teaches that modifications can be made by one of skill in the art (column 15, lines 39-44). Accordingly, it would have been obvious to modify the method suggested by combining Pollack et al. and Yoshida et al. to include placing the dentures in the container as the cleaning tablet is dissolving. This would allow cleaning and disinfecting to begin to take place as soon as the actives are dissolved and released into the water instead of waiting for the tablet to completely dissolve.

No claims are allowed.

Conclusion

All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. See MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
